May 15

Dear Harold,

I'm sorry but just too many things are happening for me to start digging for that information you wanted. I'm working all kinds of hours....trying to see Dianne every opportunity...trying to look for a permanent place for us to live....not to mention the fact that my press credentials aren't available yet.

I'm sure you want it as soon as possible so I want to advise you of what's going on at the moment on my end.

Please give my best to Lil, and hope you're not upset with me, but I just cannot physically find the time to do it right now. Dianne graduates in a few weeks and so you can see my plight.

Keep in touch...and let's have a drink the next time you get to New York if I'm not working....if I'm working let's have it after work!

Bill
